Subject: Copper site-specific objective work plan for review
Attachments: SSO_WorkPlanFinalDraftAll_10-30-2018.pdf

This is a message from the California Regional Water Quality Control Board, Los Angeles Region (4).

The Los Angeles Regional Water Quality Control Board (Water Board) is forwarding this information to interested parties from the Southern California Coastal Water Research Project. Any questions relating to the Water Board's Marina del Rey Harbor Toxics TMDL should be directed to Shana Rapoport at Shana.Rapoport@waterboards.ca.gov or 213-576-6763.

FORWARDED INFORMATION

Attached for your review and comment is the draft work plan for a special study to investigate the scientific basis for establishing a site-specific objective for dissolved copper in Marina del Rey Harbor. This project proposes to use EPA-recommended toxicity analyses to examine the effects of site-specific water quality characteristics on copper toxicity in the Harbor. Please send comments/questions regarding this study by email to Dr. Ashley Parks at the Southern California Coastal Water Research Project: ashleyp@sccwrp.org. **The deadline for comments is December 3, 2018.**

We will consider your comments in development of the final work plan for this study.

Thank you in advance for your interest in this study,

Steven Bay
SSO science team lead
